I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

Comments: The services that College Pharmacy provides to me are not available from commercial pharmaceutical manufacturers or my local pharmacy. I'm using a special estrogen and progesterone that my doctor feels is good for me - and is not as potent as the commercial one - not as bad side effects.
